PROFESSIONAL EXPERIENCE

Front-End Web Developer — The Woodsmith Store | Jan 2025 – Jun 2026

- Enhanced a responsive WooCommerce website by implementing HTML, CSS, JavaScript, and WordPress updates within an agency-supported environment
- Developed and refined responsive user interface components that improved consistency, usability, and overall customer experience
- Implemented WordPress website enhancements using Advanced Custom Fields (ACF) and WordPress theme customizations to support evolving business and marketing needs
- Collaborated with stakeholders and external partners to implement website enhancements, marketing initiatives, and CMS content updates
- Improved website performance, cross-browser compatibility, accessibility, and overall front-end quality through ongoing maintenance and optimization

Senior Product Owner — CDS Global | May 2023 – Jan 2025

- Led Agile sprint planning, backlog prioritization, and release planning for enterprise web applications
- Collaborated with developers and business stakeholders to translate business requirements into front-end enhancements
- Balanced business goals, user experience, and technical feasibility throughout the product lifecycle

Senior Front-End Web Developer — CDS Global | Nov 2006 – May 2023

- Developed responsive user interfaces for enterprise subscription, membership, and customer service websites using HTML, CSS, JavaScript, and CDS Global's proprietary CMS
- Collaborated with designers, QA teams, product managers, and business analysts to deliver scalable, user-focused web applications
- Modernized existing interfaces through responsive redesigns that improved usability, accessibility, and overall user experience
- Implemented accessible, standards-based front-end code while maintaining consistency across enterprise web applications
- Improved cross-browser compatibility, responsive behavior, and front-end performance across desktop and mobile devices
- Mentored junior developers and contributed to front-end development standards and best practices

Freelance Front-End Web Developer | Jan 1997 – Nov 2006

- Designed and developed custom websites for small businesses using HTML, CSS, and JavaScript
- Partnered with clients to deliver user-friendly websites aligned with business goals
